

The Independent Research Group in the field of **Ethics of Generative AI** headed by **Dr. Thilo Hagendorff** invites applications for a

Student Research Assistant (f/m/d) – 20h per month

Join the Independent Research Group if you're interested in research related to generative AI, machine behavior, large language models, and their ethical implications. The group is part of the project [Reflecting Intelligent Systems for Diversity, Demography, and Democracy \(IRIS3D\)](#) and is located at the [University of Stuttgart, Germany](#).

Details

We are currently seeking a research assistant with excellent English language skills and programming knowledge in Python. The ideal candidate will be passionate about interdisciplinary research, AI Ethics as well as large language models. Ideally, the candidate is proficient in psychology, too. The candidate should be motivated to contribute to research, proposals, papers, and experiments in the mentioned fields. Your responsibilities comprise, among others:

- Assist in conducting research on topics related to generative AI systems
- Evaluate model outputs or support qualitative research (coding)
- Help composing, formatting, and submitting research proposals
- Proof-read English documents
- Conduct literature search

Requirements

- You're studying computer science, psychology, or related subjects and are interested in interdisciplinary research
- Excellent English language skills (C1 level or native speaker)
- Programming knowledge in Python or experience in working with LLMs like GPT
- Excellent communication and collaboration skills
- Ability to work independently and manage time effectively

How to apply

Please submit your application, including a CV, a brief statement of interest, and potentially relevant publications or writing samples, to thilo.hagendorff@iris.uni-stuttgart.de (in a single PDF file) by 25.11.2023. The initial contract will be for 1 year.

The University of Stuttgart would like to increase the proportion of women in the scientific field and is therefore particularly interested in applications from women. Severely disabled persons are given priority in the case of equal suitability. Information on how the University protects personal data under Article 13 of the GDPR can be found via the following link: <https://www.uni-stuttgart.de/en/privacy-notice/job-application>

We look forward to your application!
